

National Handicap for Cruisers (NHC) - Base List

The NHC Base list should be used in conjunction with the "Rules and Guidance" document available on the rya website: www.rya.org.uk/racing/pages/nhc.aspx. The base list contains base numbers for a large number of designs. Where a design is not featured on the base list a club should get in contact with the RYA technical department (technical@rya.org.uk). The base numbers should be used for boats taking part in a club series where a club number has not been developed. The base list should also be used to allocate base numbers to boats for their first race in a regatta series. It is important to take note of the design year as there may be 2 or more numbers for the same design may be available.
